

Wholesale Fuel Cost Adjustment Schedule FCA

The rates of the Cooperative shall be increased or decreased in accordance with the following formula:

The amount charged for each kWh of energy sold by the Cooperative, excluding sales to customers billed under Rate Schedule LPS and Rate Schedule H-18, shall be increased or decreased by an amount equal to:

$$F = (B+S) \times 1 / (1 - L)$$

Whereas :

F= Monthly fuel cost adjustment of the Cooperative in cents per kWh.

B= Monthly wholesale fuel adjustment (cents/kWh) billed by Buckeye Power, Inc.

L= System line losses, excluding sales billed under Rate Schedule LPS and Rate Schedule H-18, expressed as a decimal fraction.

S = Temporary Buckeye Power Sulfur Dioxide Rider billed by Buckeye Power, Inc., currently \$0.00015 per kWh, and as amended by Buckeye Power.

Terms of Payment

The rates are net. If the total amount as computed is not paid in accordance with the monthly statement rendered, then the net bill will be increased by five percent.

Delivery Point

Unless otherwise specified in the agreement for electric service, the delivery point shall be the metering point when service is furnished at secondary voltage, or at the point of attachment of the Cooperative's primary line to the Customer's primary facilities if service is furnished at primary distribution voltage.

Primary Service

If service is furnished at the Cooperative's primary distribution voltage, a discount of four percent (4%) shall apply to the demand and energy charges specified in this schedule. The Cooperative may meter at secondary voltage and adjust to primary metering by adding the estimated transformer losses to the metered kilowatt hours and kilowatt demand. All wiring, poles, lines and other equipment (except metering equipment) on the load side of the delivery point shall be owned and maintained by the Customer. (Additional charges for metering may apply.)

Temporary Service

For temporary service, the Customer shall pay in addition to all the other charges set forth herein, the total cost of connecting and disconnecting service less the value of materials returned to stock. An advance deposit may be required of the full amount of the estimated bill for service, including the cost of connection and disconnection.

Three Phase General Service Rate Schedule T

Everything you have come to depend on from us, and more.

www.ure.com

Availability

This rate schedule is applicable to customers served by the Cooperative at a single point of delivery requiring three phase service where the monthly electric power requirements do not exceed 50 kW, in accordance with the Cooperative's rules and regulations and where the Customer has executed a written agreement for electric service with the Cooperative.

Type of Services

Three phase, 60 hertz, at the Cooperative's standard secondary voltages

Monthly Rate

Generation Service

| | |
|--|-------------------|
| Demand Charges All kilowatts of Billing | \$4.55 per kW |
| Energy Charge All kilowatt-hours | \$0.00685 per kWh |

Transmission Service

| | |
|--|----------------|
| Demand Charge All kilowatts of Billing Demand | \$ 1.55 per kW |
|--|----------------|

Distribution Services

| | |
|--|-------------------|
| Base Charge | \$50.00 |
| Demand Charge All kilowatts of Billing Demand | \$ 2.45 per kW |
| Energy Charge All kilowatt-hours | \$0.01775 per kWh |

Determination of Billing Demand

The Billing Demand shall be the maximum kilowatt demand established by the Customer for any period of fifteen (15) consecutive minutes during the month for which the bill is rendered.

Power Factor Adjustment

The Customer agrees to maintain unity power factor as nearly as practicable. Where there is an indication of a power factor of less than ninety-two and one-half percent (92.5%) lagging, the Power Company may, at its option, install such equipment on its system as it deems necessary to correct the Customer's power factor to an acceptable level and the Power Company shall bill the Customer a monthly facilities charge equal to one point fifty-five percent (1.55%) of the installed cost of such equipment.

Monthly Minimum Charges

The monthly minimum charge shall be the higher of the following charges plus any energy charge, fuel cost adjustment, wholesale power cost adjustment and tax provision charges:

- 1) \$50.00 plus the sum of the Generation & Transmission Service and Distribution Services Demand Charges.
- 2) The monthly minimum charge specified in the agreement for electric service.

Wholesale Power Cost Adjustment

Whenever the wholesale power rate increases or decreases above or below the current applicable Buckeye Power, Inc. wholesale rate schedule, the Cooperative may increase or decrease the Generation & Transmission Service Energy Charge by an amount sufficient to recover such change in its wholesale power cost.

Tax Provision

All non-federal government and non-exempt Customers served hereunder shall be assessed and billed an energy excise tax in accordance with Schedule EET.

The Customer shall also pay in addition to all other amounts provided herein any other sales, use, franchise, gross receipts, utility, excise, or other tax now or hereafter applicable to the service rendered hereunder or imposed on the Cooperative as a result of such service; provided, however, that no such tax shall be included in the monthly charge if the Customer has furnished to the Cooperative satisfactory evidence of the Cooperative's exemption from liability for such tax.
