

# A Helping Hand for Those in Need

## Small Change that Changes Lives

Operation Round-Up was implemented in 1999 to help the people and communities served by Union Rural Electric. The charitable program provides an easy way for URE members to support the basic needs of people in and around our service area.

**Each month the electric bills of participating members are "rounded up" to the next dollar amount, with the extra change deposited into the Operation Round-Up trust account. The funds are overseen by an independent board of trustees and donated to deserving individuals and non-profit organizations. All administrative expenses are paid by URE.**

As a voluntary program, Operation Round-Up relies on member enrollment to ensure continued success. **The average contribution of 50 cents per month or \$6 per year is tax deductible** and has provided needed donations for the basic necessities like food, clothing, shelter, education and public safety throughout Union County. Please join us in helping make Union County a great place to live for everyone. Enrolling is easy. Just check "Yes" for Operation Round-Up on your membership application.
